

## Module 5

# Data Visualization

- univariate bar plot
- bivariate bar plot
  - grouped
  - stacked
  - proportional
- mosaic plot
- pie chart
- donut chart

# Grouped Bar Plot

Rsquared Academy

# Stacked Bar Plot

# Proportional Bar Plot

Rsquared Academy

- Bar charts provide a visual representation of categorical data
- Use grouped bar chart to make comparison against different categories of data
- Use stacked bar chart while looking at cumulative data
- Use proportional bar chart when you want to concurrently observe each of the several variables as they fluctuate
- Use mosaic plot to discover associations between two variables
- Use pie chart and donut chart when comparing each group's contribution to the whole
